

William F. Greenlee, Ph.D.

Dr. Greenlee is President and Chief Executive Officer of The Hamner Institutes for Health Sciences (formerly CIIT Centers for Health Research) in Research Triangle Park, NC. He also serves as Chief Executive Officer and Chair, Health Research & Education Foundation, Research Triangle Park, NC. He received his B.S. and M.S. degrees in Chemistry from San Jose State University and a Ph.D. degree in Pharmacology from the University of Rochester. After completing a postdoctoral fellowship at CIIT in 1980, Dr. Greenlee was appointed Assistant Professor of Toxicology at the Harvard School of Public Health and held a joint appointment in the Program in Cellular and Developmental Biology at the Harvard Medical School. He later returned to CIIT as a member of the senior scientific staff and in 1988 was appointed Head of the Department of Cellular and Molecular Toxicology. He was recruited to Purdue University in 1991 as Professor and Head of the Department of Pharmacology and Toxicology. From 1995-1999, Dr. Greenlee was Professor and Chair of the Department of Pharmacology and Molecular Toxicology at the University of Massachusetts Medical School in Worcester, MA. Dr. Greenlee is widely recognized for his research and education contributions in molecular toxicology and has published benchmark studies on the molecular basis of dioxin actions in humans. He has served on the editorial board of several journals and government advisory panels. From 2002-2004, he was Vice Chair of the National Academy of Sciences NRC Committee on *Emerging Issues and Data on Environmental Contaminants* and held a joint appointment on the NRC Committee on *Communicating Toxicogenomics Information to Nonexperts*. Dr. Greenlee has served as Chair of the Indiana State Legislative Committee for the American Association for Cancer Research and was the Chair of the 1996 Toxicology Gordon Conference. Dr. Greenlee is the Past President of the Society of Toxicology, where he has also served as President of the Molecular Biology Specialty Section (1989) and Councilor (1993-95). He is Past Chairman of the Board of Directors of the North Carolina Association for Biomedical Research, and a Fellow of the Academy of Toxicological Sciences.
