

Marc Hollander

Associate Director of Management, NIEHS

Marc S. Hollander joined the National Institute of Environmental Health Sciences as associate director for management in 2006. Prior to that, he was the manager of the Management and Technical Support Office at the NASA Engineering and Safety Center.

He is the former deputy assistant secretary and chief financial officer for the Science and Technology Directorate in the Department of Homeland Security, which is responsible for researching, organizing, and leveraging the scientific, engineering, and technological resources of the United States to protect the homeland, and chief information officer for the National Nuclear Security Administration.

Hollander holds a BS in accounting from George Mason University and an MS in management from Florida Institute of Technology. He is a certified public accountant and certified project management professional.
